Attention Army Corp of Engineers:

Your wages are paid by our tax dollars. That means you are our employees. Your performance is not good enough if the NEPA scoping completion date is 2015.

Asian Carp MUST NOT get into the Great Lakes. That is, hoping they aren't already in. The NEPA scoping completion date of 2015 is Totally Unacceptable! This must be prioritized and completed mid-2012.

The electric barrier has been in place for over 12 years and that was only a temporary action. That means more action has been required all along.

The commercial and recreational fishing and boating industry that exists on all the Great Lakes is extremely important and must not be destroyed by these invaders. There are already enough issues with all the other invasive species in the Great Lakes. Our economies have had enough hits. We need our Great Lakes to be Asian Carp LESS!

I hope we don't have to explain to our grandchildren that the Great Lakes USED TO BE a wonderful place to play in and on.
